

What factors are influencing your Career Decisions?

There are many influences which affect us all when it comes to making career decisions. These influences can be internal e.g. your health, beliefs, personality (inner circle) or external meaning they come from our environment e.g. family, location, globalization (outer circle).

1. On the diagram above, write down the influences which have affected your career so far.
2. How has paid and unpaid work experiences, volunteering, and community work influence your career?
3. In the red and green circles with the lightning bolt, include any chance events that have occurred such as unplanned or unpredictable situations which have
